HEALTH SCIENCES

Intensive learning and training molds our students into skilled health care professionals. They gain practical skills in purpose-built labs and benefit from community and clinical collaborations which take place in one of the top healthcare hubs in North America.

WHY FANSHAWE?

- ▶ Experience innovative pharmacy simulations within the newly-renovated practice labs in both the Community Pharmacy Assistant and Pharmacy Technician programs
- ▶ Occupational Therapist Assistant and Physiotherapist Assistant students develop strong practical skills by participating in three clinical placements in a variety of settings including hospitals, retirement homes and more
- ▶ Pre-Health Science graduates have an extremely high success rate in their subsequent demanding diploma and degree programs
- ▶ Study Fitness and Health Promotion to gain practical skills, build your client portfolio and jump-start your career in a program connected to industry and university partners
- ▶ Immerse yourself in the future of health care with our new XR lab, offering state-of-the-art resources in extended reality (XR) and virtual reality (VR)
- ▶ Study at a college whose programs have made their mark globally, such as our highly-competitive Respiratory Therapy and Dental Hygiene programs. Students and faculty from these programs embark on Global Citizenship learning projects in Guatemala and Grenada, making a significant impact worldwide
- ▶ Earn clinical experience, like Dental Hygiene and Dental Assisting students who help the London community with affordable oral health care at our on-campus Oral Health Clinic

SCIENCE & ENGINEERING

From the robotics lab to the science laboratory, our programs will teach you to solve real-world problems using forward-thinking techniques and technologies.

WHY FANSHAWE?

- ▶ Gain work experience, make connections with employers and apply your knowledge through paid co-op opportunities
- ▶ Our program delivery models emphasize learning of technical and essential skills required for productivity and success in the workplace, refined through project work
- ▶ Apply your skills and learning with capstone projects, like students in the Electromechanical Engineering program, who have the opportunity to design, construct, implement and manage real-world solutions using skills in robotics, automation and project management
- ▶ Participate in collaborative research and learning projects with industry partners in spaces like the Centre for Applied Research and Innovation in Biotechnology (CARIB). Its biology, chemistry, instrumentation and physics teaching labs, along with biosafety level two culture facilities, help our students build a skill set that will be in demand
